Curriculum Economics

Thesis: Advanced Econometrics – Nonparametric methods for efficiency analysis

BSc. in Economics and Finance

October 2018

Department of Economics
UNIVERSITÀ DEL SALENTO
Thesis: Econometrics – Economic growth and renewable energy resources in European countries

RESEARCH INTERESTS

Emissions Analysis, Energy Economics, Econometrics, Competition Economics

SELECTED WORK IN PROGRESS

Competition for Carbon Storage

With Knut Einar Rosendahl, Rolf Golombek, Snorre Kverndokk and Michael Hoel
R&R JEEM: *Applied*

Synergies between Direct Air Capture and Electricity Prices

With Knut Einar Rosendahl

Econometric Modelling of Norwegian CO₂ Emissions with Structural Breaks

TEACHING EXPERIENCE

ECN372 Climate Economics
Norwegian University of Life Sciences

Teaching Assistant, Fall 2022

ECN280 Energy Economics
Norwegian University of Life Sciences

Teaching Assistant, Spring 2023

**BUS311 Environmental Management
and Sustainability Reporting**
Norwegian University of Life Sciences

Teaching Assistant, Spring 2023

ECN280 Energy Economics
Norwegian University of Life Sciences

Teaching Assistant, Spring 2024

PRESENTATIONS AND CONFERENCES

SURED 2024 (University of Basel). Monte Verità Conference on Sustainable Resource Use and Economic Dynamics

SAMFUNNSØKONOMENES FORSKERMØTE 2024 (University of Oslo)

SIDE 2024 (Free University of Bolzano). 4th Italian Workshop of Econometrics and Empirical Economics: Climate and Energy Econometrics

Summer School on Economic Foundations for Energy and Climate Policies 2022 (European University Institute – The Florence School of Regulation Energy and Climate).
